

Beaverton Community Emergency Response Team

MAYDAY 2010

Saturday, May 22 at 8:30am

The wind has been howling all night. What they predicted as a "small storm" has clearly grown into a major one. THUD! You hear an enormous crash outside that shakes the floor. Fortunately, your family and property are safe... but at dawn the neighborhood is a mess. You put on your CERT vest and walk out the front door...

Please join your fellow Beaverton CERT members for a training exercise set in the aftermath of a major windstorm. All CERT team members and leads are invited as well as amateur radio operators from the Beaverton CERT Radio Group. We'll be working on activation and organization, as well as initial damage assessment and triage, all in a realistic scenario in simulated "neighborhoods". You won't want to miss it!

Beaverton CERT: www.beavertonoregon.gov/departments/emergency/cert
Beaverton CERT Radio Group: www.beavertoncertradio.org

WHAT?

Beaverton CERT Training Exercise

WHO?

CERT Team Members
CERT Team Leads
Amateur Radio Operators

WHEN?

Saturday, May 22, 2010
